We are Inviting Qualified Boat, Service and Part Resellers to Join Us!

SEASPENSION TECHNOLOGIES, INC. is looking to align itself with others who want to share the benefits of **SEASPENSION** in a way that is profitable to us all.

SEASPENSION will work with you as our distributor and value your participation. The benefits for each a distributor relationship includes:

- You can offer a unique, patented product that will work in many types of boats.
- Our distributors receive a favorable cost (compared to dealers and retail customers) which allows them to be competitive in their markets.
- Promotional literature is available and you're included on our website.

Sit Down & Enjoy the Ride!™

We offer a free consultation to discuss this opportunity with you.

"Fighting Ahi or Marlin can be a back breaking experience, but motoring in the boat shouldn't be, yet seldom is it true in our rough Hawaiian waters.

I went from a 31' Bertram to a 43' Viking to gain range, room and a better ride, but until I removed my fixed pedestal for Seaspension pedestals, I had never achieved real comfort. Seaspension tamed some very angry Hawaiian seas. Looking back, it was far more practical and economical to have bought the Seaspension to achieve the big boat feel then it is to have bought the big boat. I'm so sure that any boat's ride would be improved by this product that I became a distributor."
