

**SPEND MORE TIME IN THE AIR
THAN YOU DO ON THE WATER?**

Sit Down & Enjoy the Ride!

SEASPENSION® is the innovative leader in shock-mitigating suspension systems for boat seats. Comfort and safety are often compromised by rough seas, forcing boaters to stand up and hang on. Our patented shock-absorbing pedestals will change the way you use and enjoy your boat. Whether fishing with friends, cruising with the family, or pounding the waves in a high-speed boat, our system provides the ultimate in comfort and safety. It's time for you to retrofit your boat's rigid seat posts with our new shock-absorbing pedestals. Go full speed ahead with **SEASPENSION®**

- ✦ No more painful jolts to the legs & back
- ✦ Absorbs shock waves & pounding
- ✦ No more standing to feel secure
- ✦ Reduces boating fatigue
- ✦ Increases your boating pleasure
- ✦ Engineered for maximum comfort

"The **SEASPENSION®** bolsters you sold us are not only lifesavers, they are knee, back and neck savers. They take repeated poundings and remain just as tight and squeak-free as the day they were new. One of the Navy's biggest concerns is safety and these bolsters have boosted that safety level in ways that we would never have thought."

-US Navy, Afloat Training Group

"I have logged 637 hours with your pedestal at the helm station. I can't overstate my satisfaction with the comfortable ride I am now accustomed to. I will never go back to the old seating systems."

- Capt. Bill Giddens

DESIGNED WITH BOATERS IN MIND.

SEASPENSION®
Sit Down & Enjoy the Ride!™

SEASPENSION®

Sit Down & Enjoy the Ride!™

SEASPENSION® is designed to be used as a stand-alone solo post, as a dual post benchseat, or as a tripod bolster seat. Our pedestal shock-absorbing system will turn your boat ride into a smooth, comfortable, safe experience which, until now, has been virtually impossible.

SEASPENSION® warrants its products to be free from defects in materials and workmanship. Visit our website for more information on our warranty coverage.

COMMON FEATURES

BASE:

Heavy duty 9.25" aluminum casting
Standard 6 hole (round)
Internally ribbed reinforced collar

OUTER TUBE:

6061 T-6 Aluminum
4.0" O.D. Mil. spec TIG welded

INNER TUBE:

Specially urethane bonded to base casting for maximum strength & shock absorption

EXTERNAL HARDWARE:

Stainless steel
All stainless separated from dissimilar metals

SHOCK ABSORBER:

Velocity sensitive internal valving for optimum dampening

DAMPER SPRING:

Progressively rated stainless steel.

SOLO POST • BENCH POST • TRIPOD • DUAL POST

WHICH DO YOU WANT FOR YOUR BOAT?

SOLO POST

STANDARD:

These units are designed to be mounted to a universal flat bottomed slider. The Post swivels 360° with auto lock forward facing feature.

HEIGHTS:

16 inch (40.64 cm)
19 inch (48.26 cm)
22 inch (55.88 cm)
25 inch (63.50 cm)

SPIDER:

These models are our best seller and are designed to use your spider/slider which fits a 2 7/8 O.D. standard pedestal tube.

HEIGHTS:

20 inch (50.80 cm)
23 inch (58.42 cm)
26 inch (66.04 cm)
29 inch (73.66 cm)

DUAL POST

Offers high performance shock-mitigation for a wider range of seated passengers if you have larger helm chairs or greater seated weights. Designed for commercial and military applications, but available to the recreational boater.

BENCH POST

BENCH POSTS:

These Posts are designed to operate independently from each other. This means you can have occupants of substantially different weights sit on either end without binding.

HEIGHTS:

18 inch (45.72 cm)
21 inch (53.24 cm)
24 inch (60.96 cm)
27 inch (68.58 cm)

Shock-mitigating suspension that can be mounted under bench seats, leaning posts, or any flat-bottomed surface.

For larger benches or blue water usage, we recommend a third post mounted center aft. President H.W. Bush's seat shown.

HEIGHTS:

Drop Down: 22 inch (55.88 cm)
25 inch (63.50 cm)

Sit Down: 16 inch (40.64 cm)
19 inch (48.26 cm)
22 inch (55.88 cm)
25 inch (63.50 cm)

TRIPOD

TRIPOD BOLSTER:

Our bolsters are offered in either a drop-down version or a sit-down (non-drop down) version. Both are designed with 3 Posts and are sold complete with upholstered seat. Please call the factory for options and custom work.

Approved for military use and custom built for racing applications. The triangular configuration of the tri-pod bolster provides maximum protection in extreme conditions.

"I was able to stay in the seat after hitting a few five foot waves. I didn't feel any impact shudders that normally go up my spine during a trip like this."

*- Jopie Helson
Marina Owner*
