POWER BOATS

**COMMERCIAL & GOVERNMENT
PRODUCTS DIVISION
GSA CONTRACT HOLDER
GS-07F-0163N**

Seaspension Technologies, Inc.
8064 118th Ave. N.,
Largo, FL 33773

"We remained seated in 4-6 foot waves, with the boat attaining speeds of 50 knots in 15 to 20 knot headwinds during the first sea trials prior to delivery to the Trinidad Coast Guard. The Seaspension bolsters delivered the performance we desired and met the shock-mitigation specifications for the contact. The seats we also delivered on-time to an accelerated schedule."

Best regards,
Gregory C. Inscore
